

Sunbrella Color Card in Adobe Acrobat© Format

This is the page out of our (paper) catalog with the Awning Weight Sunbrella solid colors. This should be considerable more accurate than the color swatches on the website. Walnut Brown, Persian Tweed, Teal Tweed, Hemlock Tweed and Dubonnet Tweed are colored threads alternating with black threads. Mocha and Linen Tweed are colored threads alternating with white threads. Seaspray, Turquoise, Tan and Brown are "textured" colors. That is, there are different colored threads that make up the overall color.

Sunbrella Color Card
